Westinghouse appliances are European designed. So they don't just look good, they boast practical features and proven technology with A-class energy efficiency.

Westinghouse ovens have generous 66 ltr capacities and smart designs. A vast line-up of gas and electric cooktops come with practical features such as removable control knobs and a variety of durable and low maintenance surfaces, finishes and styles for easy cleaning.

Westinghouse rangehoods have been developed with the well-being of you and your family in mind – minimising the grease, steam and heat that occurs naturally when cooking.

Westinghouse appliances
are designed with your
needs in mind.
